

FIELD-VERIFIED OWNER RECORDS

Know every PACS reader, panel, and door you actually own.

Access Control / PACS As-Built Documentation

Field-verified owner-side records for readers, doors, locks, controllers, power supplies, elevator interfaces, and head-end equipment.

Why it matters

Bid upgrades from facts, not assumptions

Reconcile support scope against what is actually installed

Reduce takeover, troubleshooting, and capital-planning friction

What we document

Door + reader inventory

Panels, modules, and power supplies

Head-end + closet context

Exceptions, unknowns, and lifecycle flags

Typical deliverables

PDF Report

Floorplan Overlays

Risers / One-Lines

Device Schedules

Exceptions Log

Best fit

Vendor Takeovers

Upgrade Planning

Closeout Correction
