

GLOBIN
ENGINEERING
BUILDING TECHNOLOGY. DOCUMENTED.

FIELD-VERIFIED OWNER RECORDS

See what cameras exist, where they look, and what they connect to.

CCTV / Video Surveillance As-Built Documentation

Field-verified owner-side records for camera locations, naming, recorder context, head-end equipment, coverage notes, and exceptions.

Why it matters

Plan upgrades with
a verified camera
baseline

Validate coverage,
naming, and recorder
assumptions

Reduce migration
and takeover risk

What we document

Camera
locations + views

VMS /
recorder context

Closets, switches,
and head-end

Exceptions,
unknowns, and
lifecycle flags

Typical deliverables

PDF Report

Floorplan Overlays

Camera Schedule

Risers / One-Lines

Exceptions Log

Best fit

Video Migrations

Vendor Takeovers

Coverage Review
