

**GLOBIN
ENGINEERING**
BUILDING TECHNOLOGY. DOCUMENTED.

Document every reader, panel, and door you actually own.

Access Control / PACS As-Built Documentation

Owner-side, field-verified records for readers, doors, locks, REX devices, contacts, panels, controllers, power supplies, elevator interfaces, and head-end context.

WHY IT MATTERS

PROTECT OWNERSHIP

Know which doors, readers, panels, and controllers the owner actually owns.

PLAN UPGRADES FASTER

Give bidders a verified baseline before access-control modernization.

REDUCE TAKEOVER RISK

Expose unlabeled panels, unknown paths, inactive doors, and support gaps.

PACS-READY DELIVERABLES

PDF REPORT

Comprehensive as-built documentation with photos, field notes, and findings.

FLOORPLAN OVERLAYS

Door, reader, and access-controlled opening locations on clean owner plans.

DOOR + READER SCHEDULE

Complete inventory of readers, locks, contacts, REX devices, and doors.

PANEL + MODULE INVENTORY

Controllers, modules, power supplies, cabinets, and head-end equipment.

RISERS / ONE-LINES

System paths, panel relationships, elevator handoffs, and visible topology.

EXCEPTIONS LOG

Unlabeled gear, unknown paths, inactive devices, missing records, and lifecycle flags.

BEST FOR

ACCESS UPGRADES

Modernize PACS from a verified owner baseline.

VENDOR TAKEOVERS

Know what the incoming support team inherits.

SUPPORT REVIEW

Compare service scope against installed devices.

CLOSEOUT CORRECTION

Fix incomplete or stale project documentation.
