

**GLOBIN
ENGINEERING**
BUILDING TECHNOLOGY. DOCUMENTED.

Renew support against the installed base, not guesses.

Support Contract Reconciliation Baseline

Field-verified documentation that compares support scope against active devices, inactive equipment, platforms, closets, rooms, vendor assumptions, and owner-side exceptions.

WHY IT MATTERS

VERIFY WHAT EXISTS

Confirm device counts, systems, platforms, rooms, and equipment before renewal.

CLOSE SCOPE GAPS

Separate active, inactive, excluded, unsupported, and unclear items.

SUPPORT BETTER PRICING

Give owners a defensible baseline for rebids, renewals, and disputes.

RECONCILIATION-READY DELIVERABLES

SUPPORT-SCOPE WORKSHEET

Contract-to-field comparison for installed devices, systems, and support assumptions.

CONFIRMED INSTALLED BASE

Verified active equipment by system, floor, area, type, platform, and vendor.

EXCEPTIONS LOG

Inactive devices, unsupported items, missing exports, access gaps, and unclear ownership.

VENDOR / PLATFORM MATRIX

Responsibility boundaries, vendor assumptions, contract context, and support notes.

FLOORPLAN OVERLAYS

Support areas, critical devices, rooms, closets, and head-end locations.

OWNER-READY PDF SUMMARY

Concise renewal, rebid, or dispute-resolution package for decision-makers.

BEST FOR

SERVICE RENEWALS

Check the contract against current field conditions.

SUPPORT REBIDS

Give vendors a verified installed base before pricing.

DISPUTE RESOLUTION

Separate confirmed facts from open questions.

PORTFOLIO REVIEW

Compare scope, counts, and support assumptions across assets.
