

GLOBIN
ENGINEERING
BUILDING TECHNOLOGY. DOCUMENTED.

Give tenant spaces a usable technology record.

Tenant / Office Technology Package Starting at \$8,500

A multi-system documentation package for office and tenant environments with limited head-end complexity but multiple technology touchpoints.

WHY IT MATTERS

OFFICE-SCALE PACKAGE

Typical starting scope: up to 75,000 SF, 5 floors, and 125 devices or endpoints.

MULTI-SYSTEM BASELINE

Capture access, video, AV, network, visitor, sensor, and tenant technology as applicable.

FASTER HANDOFFS

Give property, tenant, vendor, and executive teams a usable common record.

INCLUDED DELIVERABLES

EXECUTIVE SUMMARY

High-level package overview, key systems, findings, and recommended actions.

SYSTEM INVENTORY

Verified device, room, platform, status, and support-context schedules.

FLOORPLAN OVERLAYS

Technology locations and system zones shown on owner-ready floorplans.

DEVICE SCHEDULES

Complete schedule of devices, endpoints, rooms, and system context.

EXCEPTIONS LOG

Missing records, unknown paths, unlabeled devices, and support gaps.

TENANT HANDOFF NOTES

Ownership assumptions, inherited conditions, and transition notes for teams.

AVAILABLE ADD-ONS

RISERS / ONE-LINES

Add diagrams for head-end paths and multi-floor system context.

DASHBOARD ADD-ON

Make the tenant record searchable by room, system, and status.

AV RACK NOTES

Add room, rack, codec, display, and conference-system detail.

ANNUAL REFRESH

Update after tenant churn, fit-outs, moves, adds, and changes.
