

**GLOBIN
ENGINEERING**
BUILDING TECHNOLOGY. DOCUMENTED.

Scope complex assets and portfolios with fewer assumptions.

Trophy / Portfolio Package Starting at \$35,000

A high-complexity documentation package for Class A, A+, Trophy, flagship, multi-building, or portfolio environments where assumptions are expensive.

WHY IT MATTERS

COMPLEX ASSET READY

Designed for 300,000+ SF, Class A/A+, Trophy, flagship, or portfolio environments.

EXECUTIVE VISIBILITY

Translate complex building technology into records leadership can understand and use.

SCOPED FOR SCALE

Final pricing reflects device counts, floors, access, system mix, and portfolio standards.

INCLUDED DELIVERABLES

PORTFOLIO / ASSET SUMMARY

Executive-ready overview of system scope, risks, exceptions, and priorities.

SYSTEM INVENTORY

Verified records across systems, floors, closets, platforms, vendors, and statuses.

REPRESENTATIVE FLOORPLANS

Owner-ready overlays for scoped floors, zones, systems, and support areas.

DEVICE SCHEDULES

Structured schedules for devices, endpoints, rooms, vendors, and statuses.

RISK / EXCEPTIONS LOG

High-impact unknowns, support gaps, lifecycle flags, and open decisions.

VENDOR / PLATFORM MATRIX

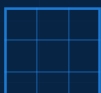

Support boundaries, platform context, vendor assumptions, and portfolio patterns.

AVAILABLE ADD-ONS

DASHBOARD ADD-ON

Provide searchable owner/operator visibility across complex records.

PORTFOLIO MATRIX

Compare systems, vendors, exceptions, and standards across assets.

RACK ELEVATIONS

Add detailed head-end and equipment-room context where scoped.

ANNUAL REFRESH

Maintain the record across projects, tenant churn, and vendor changes.
