Turn the owner record into a searchable dashboard.

Digital Dashboard Add-On Add-on starting at \$1,500

The PDF report still ships. The dashboard is the interactive owner/operator view of the same field-verified record - searchable by system, floor, device, vendor, status, and exception.

WHY IT MATTERS

FIND ANSWERS FAST

Search the record without digging through binders, folders, or scattered spreadsheets.

KEEP GAPS VISIBLE

Track exceptions, unknowns, lifecycle flags, and follow-up priorities after delivery.

SUPPORT RENEWALS

Use verified data for support scope, budgeting, dashboard updates, and annual refreshes.

DASHBOARD PACKAGE DELIVERABLES

DASHBOARD DATASET

Structured inventory aligned to the field-verified owner record and PDF report.

SEARCHABLE INVENTORY

Find devices by system, floor, room, vendor, status, lifecycle flag, or exception.

EXECUTIVE OVERVIEW

System counts, status indicators, risk flags, and quick owner/operator summaries.

EXPORTABLE SCHEDULES

Downloadable tables for reviews, bids, renewals, maintenance, and planning.

EXCEPTION TRACKING

Visible status for unknowns, support gaps, lifecycle flags, and follow-ups.

PDF ALIGNMENT

Dashboard fields remain tied to the owner-ready PDF package and source records.

AVAILABLE DELIVERABLES

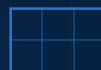

ANNUAL DASHBOARD UPDATE

\$500-\$2,500 per refresh depending on change volume and scope.

PORTFOLIO VIEW

Extend dashboard structure across multiple properties or asset groups.

VENDOR MATRIX

Add platform, vendor, support-boundary, and responsibility fields.

CUSTOM EXPORTS

Add specific CSV exports, filtered views, or owner reporting fields.
