

GLOBIN
ENGINEERING
BUILDING TECHNOLOGY. DOCUMENTED.

Keep the owner record current after every building change.

Annual Refresh Package
\$500-\$12,500 per year

A recurring update path that keeps the owner record useful after moves, adds, removals, renovations, vendor work, tenant turnover, and support changes.

WHY IT MATTERS

PREVENT STALE RECORDS

Keep field-verified documentation from becoming another outdated closeout set.

CONTROL CHANGE VOLUME

Capture deltas after projects, tenant work, support changes, and system additions.

ALIGN THE TEAM

Give ownership, property, facilities, IT/OT, security, and vendors the same updated record.

REFRESH PACKAGE DELIVERABLES

UPDATED PDF REPORT

Revised owner-ready package reflecting approved changes and current findings.

UPDATED INVENTORY

Current device, endpoint, room, platform, status, and support-context records.

REVISED FLOORPLAN OVERLAYS

Updated device locations, system zones, closet context, and owner-ready plans.

CHANGE / DELTA LOG

Summary of what changed, what was added, what was removed, and what remains unclear.

EXCEPTIONS UPDATE

New, closed, and still-open exceptions, lifecycle flags, access gaps, and unknowns.

DASHBOARD UPDATE OPTION

Optional dashboard data refresh when the interactive record is in scope.

AVAILABLE DELIVERABLES

QUARTERLY CHECK-INS

Light recurring updates when the building changes often.

PROJECT CLOSEOUT UPDATE

Fold completed vendor work back into the owner record.

DASHBOARD REFRESH

Update dashboard fields, exports, and visible exceptions.

EXPANDED SCOPE REVIEW

Re-scope additional systems, floors, or changed support boundaries.
