

GLOBIN
ENGINEERING
BUILDING TECHNOLOGY. DOCUMENTED.

REGULATORY REQUIREMENTS

Retail + hospitality records for **payment,** camera + **access** review.

Retail, Hospitality & Payment Records for Owner Review

Field-verified records for stores, hotels, restaurants, entertainment venues, parking, payment-adjacent networks, guest areas, and back-of-house spaces.

Owner-side record - not a certification.

Factual source material for PCI, loss prevention, insurance, IT, security, vendors, and operators.

Why it matters

Map payment, guest Wi-Fi, POS and back-office scope.

Verify camera, alarm, access and cash-room coverage.

Clarify vendor responsibility before PCI or insurance review.

Technology records to verify

POS-adjacent IT
+ network closets

Cameras, retention
+ remote monitoring

Access, intrusion
+ cash handling

Guest Wi-Fi +
building systems

Regulatory-review inputs

- Payment and POS-adjacent network boundaries
- Back office, IT closets, safes and cash rooms
- Camera retention and coverage assumptions
- Vendor gaps across POS, alarm, video and IT

Owner-ready deliverables

- Store/property technology inventory
- Camera, access, alarm and POS overlays
- Vendor/platform responsibility matrix
- Exceptions register and PDF report

Best fit

Retail stores + restaurants

Hotels + hospitality assets

Entertainment venues
